

Condensed Matter Theory Center mini-Symposium

December 15, 2010
10am-12pm
2205 Physics Building

All are welcome to attend.

Lev Bishop, *“Response of the Strongly-Driven Jaynes-Cummings Oscillator”*

Rajdeep Sensarma, *“Dynamic Screening, Collective modes and Single Particle Spectral function in Bilayer Graphene”*

Kai Sun, *“Topological semimetal: a probable new state of quantum optical lattice gases protected by D_{4h} symmetry”*
