

Physics 170, Professional Physics Seminar
Talks are Wednesdays, 12:00-12:50 in Physics 0405

Date	Speaker	Topic
September 3	Bill Phillips	The coolest stuff there is: Laser cooling and trapping
September 10	Alex Dragt	Theory of quantum computing
September 17	Chris Lobb	Superconducting quantum computing
September 24	Bob Dorfman	Statistical mechanics
October 1	Dan Lathrop	Experiments on nonlinear systems
October 8	Betsy Beise	Nuclear experiments and theory
October 15	Ed Ott	Chaos
October 22	Ellen Williams	Experimental statistical mechanics
October 29	Sankar Das Sarma	Condensed matter theory
November 5	John Mather	Cosmic background explorer and next space telescope
November 12	Bei Lok Hu	Gravity theory
November 19	Jean Swank	X-ray astronomy
November 26	Rabi Mohapatra	Elementary particle theory
December 3	Jim Gates	Why Einstein Would Love Spaghetti in Fundamental Physics
December 10	Jordan Goodman	Astroparticle physics
