

Review 9/29/08

- Stream lines (laminar flow)
- Stream tubes (Stream lines do not cross)
- Ideal fluids
 1. laminar flow
 2. Incompressible
 3. low or no viscosity

- Continuity equation

$$v_1 A_1 = v_2 A_2$$

w/in stream tube

New rules

HW. F will make online
due @ 5pm on Thursdays

HW make up (one @ end of

Semester will be used to
replace lowest score. F will
the drop second lowest score.)
