

Get Started with Pearson's MasteringPhysics

First, make sure you have these 3 things...

Email: You'll get some important emails from your instructor at this address.

Course ID: A Course ID looks something like MPprofessor12345. Ask your instructor for your Course ID!

Access code or credit card: The required access code comes either with your book or by itself at your bookstore. Alternatively, you can buy instant access with a credit card or PayPal account during registration.

Next, get registered!

1. Go to www.masteringphysics.com. Under the large **Register Now** section on the right side of the page, click the **Student** button.
2. Read the onscreen instructions and select your location. Next, check off whether or not you have an **Access Code**. Click **Next**.
3. If you don't have an access code, select your textbook (correct title, author, and edition) and whether you want an eText.
4. You'll then be asked to **Accept** the License Agreement before moving on. After this, either **Create** a new Pearson username/password, or, if you've already registered for another Pearson product (i.e. MyMathLab), enter that username/password. If you have an **Access Code**, enter it on the bottom of the page.
5. On the next page, fill out the appropriate information fields then click **Next**. If you entered an **Access Code**, you will be brought to a page from which you can access your product. If not, enter your payment information so that you can **Purchase Access**, after which you'll be granted access.
6. You are now registered! Now, it's time to enroll in your course. Click **Log In Now**. Once signed in you can: enter your **Course ID** (listed above) and your **Student ID** (if prompted to do so). If you don't have a course ID, you can join a course and launch the eText or study area. That's it!
