Physics 402 Fall 2010

Prof. Steve Rolston
  Email: rolston@umd.edu
  Phone: 301-405-7189
  Office: Computer Space Sciences 2215
  Office hours: W: 12:00-1:00, drop-ins encouraged.

Course Goals
To learn further foundations and applications of quantum mechanics. We will primarily cover the 2nd half of Griffiths (Chaps. 5-11) but will also spend time on modern applications including quantum information, band structure, superfluidity, Bose-Einstein condensation, and whatever else we find interesting.

Class Schedule
  Room: PHYS 0405
  Hours: M 10-10:50, W: 10 - 11:50, F 10 - 10:50

Credits: 4

Prerequisites
  PHYS 401, and PHYS 374, and MATH 240. Credit will be granted for only one of the following: PHYS 402 or former PHYS 422.

Required Text

Course Website
  http://elms.umd.edu

Homework
  Assignments will be posted on ELMS approximately weekly, due in one week, hardcopy in class. Collaboration is encouraged, but copying is not, and will not help you learn. Your lowest homework grade will be dropped.

Exams
  Quiz: there will be ~ 4 quizzes held in the second hour of alternate Wednesdays. You will drop the lowest grade, so there will be no make-ups. 
  Mid: There will be two mid-term exams in early October and mid November. The second will most likely be a take-home exam. 
  Final: the final exam will be on Dec. 18 at 8:00 AM. All exams will be open book and open notes.

Grades
  Homework: 25%
  Quizzes: 20%
  Mid-terms: 30%
  Final: 25%

Tips for Doing Well
  Read the book - it is relatively well-written.
  Do the homework - feel free to work with classmates, but do work the problems yourself.
  Ask questions - if you do not understand it, chances are some of your classmates do not as well.
  Come to lectures - much of the material is not going to be in the book, or will be presented in a different way.

Academic Dishonesty
  The University of Maryland has a nationally recognized Code of Academic Integrity, administered by the Student Honor Council. This Code sets standards for academic integrity at Maryland for all undergraduate and graduate students. You are responsible for upholding these standards. Failure to do so can result in a “XF” grade denoting “failure due to academic dishonesty.”
