

Title Of No More Than 15 Words Goes Here With Each Initial Letter Capitalized

(Title is 18 point Times New Roman font, first letter of each word capitalized, single-spaced, bold, and centered.)

Mary J. Doe*, Jane L. Doe† and Roberta F. Smith‡

(Authors are 14 point Times New Roman font, centered. Authors should use the same form of their name on all manuscripts.)

**Department of Physics, Tinsel State University, KS*

† Department of Physics, Utah State University, UT

‡ Department of Physics, Alaska State University, AK

(Addresses are 10 point Times New Roman font, italic, centered.)

Abstract: Each poster must include an abstract that provides a summary of the significant findings of the work including results and conclusions. State briefly what you have done in the project/research and why it is important. The abstract should be no more than 200 words in length (not including the Title and Authors/Institutions). The abstract should not contain literature citations. Define all nonstandard symbols and abbreviations. Do not replace the word “abstract,” but do replace the rest of this text. If you must insert a hard line break, please use “Shift + Enter” rather than just tapping your “Enter” key. The abstract is indented two spaces (0.2”) from the left and right margins. Use 9 point Times New Roman font, fully justified over both columns. You may want to print this page and refer to it as a style sample before you begin working on your abstract. Obviously, none of the [text in blue](#) above should be in your final product. You can attach your abstract to your MA-CUWiP registration as either a Word (.doc/.docx) or PDF (.pdf) file. (This poster abstract is now as close to a total of 200 words as we think it should logically be. Hurray!)
