

A sphere, a cylinder, and a ring are rolled down an inclined plane at the same time, starting from rest. They have the same radii (but not the same mass). Which one reaches the bottom first?

1. Sphere
2. Cylinder
3. Ring
4. All the same.
5. The heaviest
6. The lightest
7. Sphere & Cylinder
8. Sphere & Ring
9. Cylinder & Ring
