

At low temperature, should the Nernst potential be large or small?

- A. Large
- B. Small
- C. Nernst potential doesn't depend on temperature
- D. I don't know how to think about this

At high temperature, should the Nernst potential be large or small?

- A. Large
- B. Small
- C. Nernst potential doesn't depend on temperature
- D. I don't know how to think about this
